

Justin Snowden

High School: Riverside University High School

Projects that you worked on with SMART

Teams: Team Anthrax, with Mentor Jeff Anderson and The Mary Ryan Boys and Girls Club S.W.A.T. (Starches With Attitude Team) with mentors Tim Herman and Jennifer Morris

College: The Milwaukee School of Engineering

Major: Mechanical Engineering, 2006

Graduate School: The University of

Wisconsin, Law School

Current career plans: Currently Patent Law, however, politics is beginning to look really interesting.

Impact SMART Team had on you: My college major and current program couldn't be further from bio-chemistry. However, my experience as a SMART Team member helped me become more comfortable with public speaking. Whether giving presentations on engineering projects or delivering mock oral arguments, that comfort has proven useful on a number of diverse occasions.

Favorite memory of being on a SMART Team: My favorite memory of being a part of a SMART Team isn't a memory at all. 6 years after our high school graduation, I still consider Mia and Mike two of my closest friends. SMART Teams provide an opportunity for the kind of team bonding that's traditionally been reserved for athletes. That's one of the reasons why the SMART Team experience is valuable.
