2009-2010 SMART Teams
Presentation Phase

Task #4 – Poster draft to mentor

Due: 19 February 2010

Your mentor is the expert in your field and therefore he/she should be very involved in the development of your poster. He/She should review your poster to ensure scientific accuracy and to provide feedback on how readable and understandable your poster is. It is ESSENTIAL that your mentor reviews the poster before we print it. Please note – I will not print a poster if it has not been approved by your mentor.

Task #4 asks you to send your poster to your mentor so that he/she can review it. I will contact the mentors to ensure that they have received a copy of your poster by Feb 19th.
