2009-2010 SMART Teams
Presentation Phase

Task #7 – Discuss Oral Presentation with Mentor

Due: 10 March 2010

As with your poster, your mentor should be very involved with your oral presentation development. He/She should be aware of your presentation and not be surprised on the day of the final presentations. Please discuss your oral presentation with your mentor by March 10th. You may wish to schedule an in-person meeting to talk about your presentation, if possible. At the very least, a detailed description about your presentation should be sent to your mentor by March 10th to allow him/her enough time to make comments about the presentation and for you to have time to revise your presentation as necessary. You don’t have to wait until March 10th to discuss the presentation with your mentor!
