2009-2010 SMART Teams
Research and Model Design Phase

Task #1 – Molecule Identity

Meet with your SMART Team mentor and select a pdb file for research and model design. Send an email to Shannon with the following information:

1. PDB file name (the PDB ID code)

2. Molecule name

3. Type of biomolecule (Is it a protein? What type of protein is it? (For example, is it an enzyme, binding protein, transcription factor, etc.))

4. Function of the molecule (a one sentence description of what role this protein plays within the cell)
