Getting To Know You: Introduction to Your SMART Team

As I will be working with you for the next eight exciting and action-packed months, I would like to get to know each member of your team. Later, during the Research and Design Phase, you can present this information to your assigned research mentor as a way to introduce yourselves and familiarize your mentor with your team.

We ask that you create a SMART Team booklet, pamphlet or program featuring the “cast of characters” on your team. Your booklet should include:

1. A cover page with your school’s name and logo
2. A picture or caricature of each of the team members including your advisor(s)
3. A short biography of each member with the following information:
   - Name
   - Current grade level in school
   - Number of years participating in SMART Team
   - Reason for participation in SMART Team
   - Talent you bring to the team
   - An interesting fact that makes you memorable
   - Team member’s email address (optional)

Please email your SMART Team booklet to me (colton@msoe.edu).
