

Beth Bougie

High School: Cedarburg High School

Projects that you worked on with SMART Teams:

- Isovaleryl-CoA Dehydrogenase with Dr. Jung-Ja Kim
- Localization of Protein Kinase A and DPY-30 with Dr. Pinfen Yang

College: University of Wisconsin – Stevens Point

Major: Biochemistry

Current Career plans:

I am a biochemistry major and I might double major in biomolecular science. I hope to do either lab work or work in a crime lab as a forensics specialist.

What impact SMART Team had on you:

SMART Team gave me a really good idea what was expected in the field of biology and really helped me decide what I wanted to do for my major.

Your favorite memory of being on a SMART Team:

My favorite memory is going to the ASBMB conferences. It was a really good opportunity to see people in the field doing what they do best.
