

## Collin Rice

**High School:** Brown Deer High School

**Projects that you worked on with SMART Teams:**

- Maspin with Dr. Sally Twining and Malathi Narayan
- *Brugia malayi* Asparaginyl tRNA Synthetase with Dr. Michael Kron
- Pyruvate Carboxylase with Dr. Martin St. Maurice
- MAG Lipase with Dr. Cecilia Hillard

**College:** Northwestern University

**Major:** Theatre

**Current Career plans:**

Broadway! Or any other acting career.

**What impact SMART Team had on you:**

SMART Team was the ONLY activity that I completed each of my four years of high school. The opportunities that SMART Team presented to me through high school were beyond anything I expected. I met the greatest people, shared the most vivid and splendid memories, and learned all about the coolest little structures because of the SMART Team Program.

**Your favorite memory of being on a SMART Team:**

My favorite memory is my first EVER SMART Team meeting, the fall of my freshman year. It was all so new and exciting, yet terrifying! I remember leaving MSOE feeling like the coolest kid on the Earth for being a part of such an amazing program. I still get the warm fuzzies thinking about it. :D
